

HOW TO MEASURE YOUR KITCHEN

Good planning begins - and ends - with accurate measurements. Using the measuring procedure illustrated, you can prepare a simple floor plan of your kitchen. With this information, our kitchen specialists will be able to help design the kitchen of your dreams.

1. Measure your overall space

Draw a diagram of your kitchen, locating all windows and doors in their approximate positions. Note on the drawing the overall wall lengths of each wall. See **Measuring Procedure** for more details on how to measure your space. Please note the following:

- All of your measurements should be in inches. For example, if you measure a wall that is 10 feet, write it as 120 inches — a quotation mark (") denotes inches.
- If you are replacing your cabinets, do not include current cabinets or furniture such as kitchen tables in your measurements.
- Indicate the precise location of the center-line of the current sink, range, wall-oven and installed microwave.

1. Measure your overall space, cont'd.

MEASURING PROCEDURE

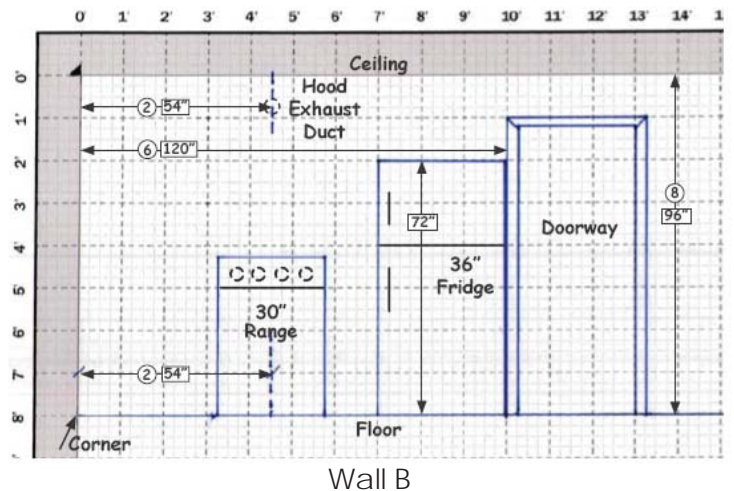

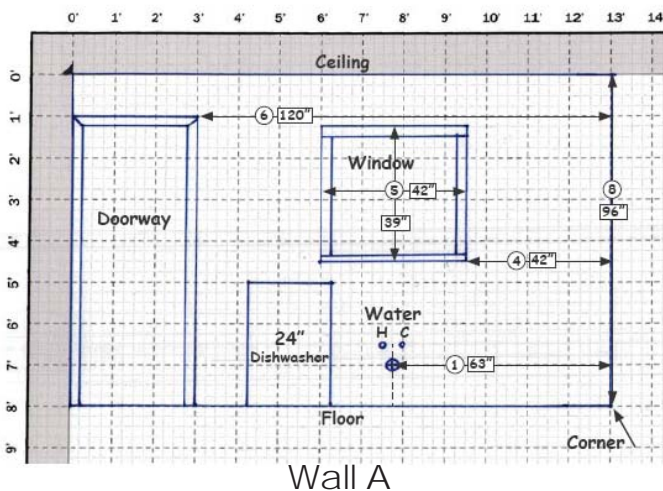

Using a tape measure and graph paper (provided on the following page), start in the corner of your kitchen and measure the following:

Horizontal Measurement

1. Measure from wall to wall.
2. Measure from corner to window or door opening.
3. Measure across opening from trim edge to trim edge.
4. Measure from edge of trim to far wall. Compare sum of #2, #3 and #4 measurements to step #1.
5. Mark location of water, drain, gas lines, and electrical outlets and switches.
6. Measure from wall to wall above window and compare to #1.

Vertical Measurement

7. Measure from floor to window sill.
8. Measure from window sill to top of window.
9. Measure from top of window to ceiling.
10. Measure from floor to ceiling. Compare to sum of #7, #8 and #9.

2. APPLIANCE & FIXTURE INFO

Knowing the dimensions of your appliances and fixtures is quite helpful in designing a kitchen that is tailored to fit your space and your needs. Please provide the following information:

	BRAND & MODEL #	SIZE W X H X D	HINGE LOCATION (right or left facing appliance)
Refridgerator			
Range / Cooktop			
Exhaust Hood			
Sink			
Dishwasher			
Microwave			
Wall oven			
Compactor			
Wine Fridge			
Other			

3. Design on a Computer

After you've completed your kitchen layout drawing, bring it to our showroom where we can discuss layout options to maximize your space. To schedule a time to meet with one of our kitchen and bath associates, call us at 408.436.8684 or email us at info@demetracabinetry.com.
